

Power and streaming in the ultimate stereo amplifier

Bring it all together, beautifully and add the power of HD streaming to your home entertainment system with the Harman Kardon Citation Amp. Power your bookshelf, floor standing, in-wall, in-ceiling speakers, or use with other Citation products to create a multi-channel wireless surround sound system. All-new Digital Loop Amplifier technology delivers 200 watts per channel allowing you to enjoy music and movies the way they were meant to be heard, with the ultimate wireless streaming experience. Stream your favorite music with Chromecast built-in™ and AirPlay or even connect to your TV via the included HDMI ARC output. The Citation Amp is also compatible with Control 4 and Creston command and control systems.

- ▶ Works with automated command and control systems
- ▶ Flexible installation options
- ▶ Ready for multi-channel surround sound
- ▶ Access more than 300 music streaming services
- ▶ Enjoy your Apple Music with AirPlay
- ▶ Distinguished design

Superior Harman Kardon Audio Performance

The first truly premium product of its kind, the Harman Kardon Citation range is the ultimate in state-of-the-art audio from Harman Kardon, the world's foremost purveyor of high fidelity audio products for over 65 years.

Class-D Amplification for all your entertainment

Upgrade your wired loudspeakers with Harman Kardon Class-D power and 200 watts per channel (4 ohms).

Innovative Harman Kardon Digital Loop Amplifier Technology

Digital Loop Amplifier technology corrects the natural errors and distortion anomalies that occur in digital amplification, restoring audio quality to the way it was meant to be heard. Hear every note as the artist intended.

HDMI ARC input for convenient sound control

Easily connect Citation Amp to your TV using the built-in HDMI ARC input and control the sound with your existing TV remote.

Comprehensive audio adjustment for any installation

Optimize the audio performance of the Citation Amp to suit your environment and loudspeakers. Adjust EQ, Maximum Volume, Mono Summing and Variable Subwoofer Crossover to your personal preferences.

Works with automated command and control systems

Harman Kardon Citation Amp can be easily integrated into the most popular connected home automation control systems including both Control 4 and Crestron.

Flexible installation options

The Harman Kardon Citation Amp can be installed anywhere. Put it in a rack, on a shelf, mount it to a wall, or hide it away and use its included IR extender.

Ready for multi-channel surround sound

Combine the Harman Kardon Citation Surround Speakers, Citation Sub S and Citation Amp with your wired home audio system for an immersive multi-channel surround sound experience.

Access more than 300 music streaming services

Relax, energize, explore. Harman Kardon Citation Amp gives you access to over 300 music streaming services through Chromecast built-in™ and AirPlay. Enjoy all of your favorite audio content, Internet radio and podcasts in stunning high-definition.

Enjoy your Apple Music with AirPlay

Discover new artists and access your favorite playlists from Apple Music with AirPlay. Use the iPhone app to choose your soundtrack and set the mood anywhere in your home.
