Twinkly Pre-Lit Tree – 400 RGB Artificial Christmas Tree, 1.8 m, 16 Million Colors – Generation II

Twinkly Pre-Lit Tree – App-controlled LED Artificial Christmas Tree with 400 RGB (16 million colors) LEDs. 1.8 meters. Green wire. Indoor smart Christmas lighting decoration.

Light up your Christmas with Twinkly Pre-Lit Tree, a unique and innovative app-controlled tree for your connected home. With a height of 1.8 meters, consisting of 400 RGB 4.3 mm diffused flat lens LED, specifically designed with a flat head to reach impressive brightness levels and perfect tone of color, Twinkly Pre-Lit Tree goes beyond the traditional decorative Christmas lighting. Thanks to the Quick Set technology, simply slide the tree sections together and the pre-wired pole-to-pole connection enables automatic lighting, eliminating messy cords. Like all Twinkly products, Pre-Lit Tree can be mapped and every single LED can be controlled individually, allowing you to create and reproduce unique effects, gradients, and color animations – Pre-Lit Tree becomes your screen. Easily configurable via Wi-Fi and Bluetooth®, Twinkly Pre-Lit Tree is controlled using the free Twinkly App, available for iOS and Android. Twinkly's App enables you to create bespoke light design installations thanks to a wide range of pre-made effects and animations, as well as the ability to create your own effects from scratch using the FX Wizard creation tool. Twinkly Pre-Lit Tree can be grouped together with other Twinkly devices to create larger, synchronized light installations. Twinkly Pre-Lit Tree can be controlled seamlessly with vocal assistants such as Hey Google and Amazon Alexa, as well as with Apple HomeKit, Homey, and Razer Chroma™ RGB via Twinkly Chroma Connector to enhance your gaming experience with stunning light effects that react to your gameplay. Suitable for indoor use only, rated IP20. Frasier Fir with power pole with memory wire. No extra plugs necessary.

Long description

Light up your Christmas with Twinkly Pre-Lit Tree, a unique and innovative app-controlled tree for your connected home. With a height of 1.8 meters, consisting of 400 RGB 4.3 mm diffused flat lens LED, specifically designed with a flat head to reach impressive brightness levels and perfect tone of color, Twinkly Pre-Lit Tree goes beyond the traditional decorative Christmas lighting. Thanks to the Quick Set technology, simply slide the tree sections together and the pre-wired pole-to-pole connection enables automatic lighting, eliminating messy cords.

Like all Twinkly products, every single LED of Pre-Lit Tree can be controlled individually, allowing you to create and reproduce unique effects, gradients, and color animations.
Twinkly's patented mapping tool uses your smartphone camera to locate the precise position of each LED in the space, however they are laid out. This powerful and innovative process lets you control your Pre-Lit Tree like a screen: you can play professional, pixel-perfect effects and animations right on your decoration.

Twinkly's App enables you to create bespoke light design installations thanks to a wide range of pre-made effects and animations, as well as the ability to create your own effects from scratch using the FX Wizard creation tool. All effects are completely customizable: brightness, speed, intensity, and color can all be modified with a single tap. A color picker helps you choose the perfect shade from more than 16 million options. An ON/OFF timer and general dimmer complete your control panel, providing you with unlimited possibilities to create the perfect lighting decoration. Pre-Lit Tree can be grouped together with other Twinkly RGB devices to create larger, synchronized light installations.

Twinkly Pre-Lit Tree can be used in combination with Twinkly Music, a small USB device (sold separately) capable of identifying and interpreting any source of music reproduced in your environment, enabling your lights to follow the beat for a WOW-effect audiovisual experience.

Twinkly Pre-Lit Tree can be controlled seamlessly with vocal assistants such as Hey Google and Amazon Alexa, as well as with Apple HomeKit, Homey, and Razer Chroma™ RGB via Twinkly Chroma Connector to enhance your gaming experience with stunning light effects that react to your gameplay.

Getting started with your Pre-Lit Tree is super easy: a quick and intuitive setup process helps you configure your device in a matter of seconds via Bluetooth® and Wi-Fi.

Twinkly Pre-Lit Tree is IP20 certified, suitable for indoor use. Frasier Fir with power pole with memory wire. No extra plugs necessary.

General

Product SKU	TWT400STP-BEU
EAN	8056326673505
Year's model	2019

Light string

LED type	Addressable LED
LED color	16M+ colors
Number of lamps	400
Lamp type	Diffused flat lens
Lamp diameter	4.3 mm | 0.17 in
