Selling Points

Connected Wall Switch with Apple HomeKit technology

- Transform your existing lights into a smart lighting system, and turn them on or off via app, Siri, or the light switch itself
- Effortlessly store schedules on Eve Light Switch that put your lights on autopilot, turning them on or off independently of your iPhone and home network
- Set scenes to simultaneously control other Apple HomeKit-enabled accessories from home or on the go — thanks to HomePod, HomePod mini, or Apple TV as your home hub
- Use in rooms with single, alternating, or cross switches simply by replacing one switch within the light switch combination
- Includes a 55 mm switch plate and frame / Integrate Eve Light Switch and the included switch plate into your existing 55 mm single or multi-switch frame / Switch plates and frames compatible with other designs sold separately
- Joins your Thread network automatically, and as a router node the accessory enhances the stability and reach of your smart home / supports Bluetooth and Thread / no need for a bridge or gateway
- Apple HomeKit-enabled for outstanding ease of use and advanced security

Target Group

- Smart Home Buyers
- Builders
- Technology Enthusiasts
- iOS Users (Individuals & Families)
