Selling Points

Smart Radiator Valve

- Use schedules to heat individual rooms or your entire home automatically to suit your routine – independently of your iPhone and internet connection.
- Fine-tune your comfort level – via the app, Siri, or directly using the integrated touch controls.
- Control your heating on the go or based on occupancy – with HomePod mini, HomePod, or Apple TV as a home hub.
- Automate your heating with Open Window Detection, Vacation Mode, Valve Protection, and a whole lot more.
- Joins your Thread network automatically / supports Bluetooth and Thread.
- Get up and running in a flash with quick & easy installation and setup, and no need for a bridge or gateway.

Target Group

- Smart Home Buyers
- Technology Enthusiasts
- Individuals & Families
- iOS Users
