

Universal USB-C Mains Charger - Black

APA95EU

Description

USB-C is the next generation of charging connector for devices ranging from laptops, phones and tablets through to wearables. The Targus USB-C charger is designed to offer universal charging for USB-C devices up to and including powerful 45W laptops. Supporting 5V, 9V, 15V & 20V charging, this is your go-to charger for all your USB-C devices. The 1.8m cable gives you flexibility when working, while built in surge protection protects your device from electrical spikes and it comes with 4 interchangeable mains plugs making it ideal for use in EU, UK & US.

Features

- Universal USB-C charging on the go - supports 4 power levels so you can use it with your laptop, phone, tablet & wearables
- Powerful - up to 45W - suitable for modern laptops including new MacBook, Dell & Lenovo Models
- Protective - built in surge protection prevents electrical spikes damaging your hardware
- Generous 1.8m cable gives you flexibility to use devices where you choose or charge them out of sight
